

# Stakeholder Survey and Comments

---

Each alternative will be evaluated based on the following criteria:

- Erosion and flood reduction
- Stakeholder support
- Ecological benefits
- Feasibility
- Sustainability
- Cost

Your input on stakeholder support is important. Please take a few minutes to score the following alternatives in terms of stakeholder support for each alternative.

1-no support, 2-low support, 3-medium support, 4-high support

Alternative	Score (1 - 4)	Comments
A1-No action		
A2- Dikes and Spoils removed		
A3- Flood Corridor Protection		
A4-Channel Maintenance		
A5-Bank Protection		

If you have any comments or questions about the alternatives, please write them down. The responses to questions/comments will be posted on the Chehalis River Basin Flood Authority website and available at the next stakeholders meeting in November (date to be announced).
