

**2015-17 Small Projects Recruitment Form**

**Chehalis River Basin Flood Relief**

**What are small projects?** -- In general, small projects are those projects that provide predominantly localized benefit, are capable of being completed within the funding cycle, are supported by the jurisdiction within which the project is proposed, and are vetted and advanced through the Chehalis River Basin Flood Authority's Chehalis Basin Projects Committee.

**Instructions:**

- a. Please submit project requests (via this form) to Scott Boettcher ([scottb@sbgh-partners.com](mailto:scottb@sbgh-partners.com)) no later than 5:00 p.m. ~~September 10, 2014~~ September 30, 2014.
- b. Please submit individual project request forms for each project in your jurisdiction, even those projects previously or partially funded in the past.
- c. Note: Parts III and IV below [marked by "(\*\*)"] will be scored as part of the Chehalis Basin Projects Committee's review and evaluation. Part I and II will not be scored.

<b>Part I General</b>	
1. <b>Date:</b>	9-24-14
2. <b>Project Nature</b>	Farm Pad or evacuation route construction to protect livestock, equipment and other farm supplies and products from flooding.
3. <b>Project Location</b> -- Please identify the location of the project as precisely as possible, preferable with latitude/longitude coordinates.	Basin wide
4. <b>Project Contact</b> -- Please identify who will be responsible for overseeing and managing the project (i.e., name, email, telephone number, etc.).	Butch Ogden WSCC <a href="mailto:bogden@scc.wa.gov">bogden@scc.wa.gov</a> 360-749-3875
5. <b>Lead Organization</b> -- Please identify the lead organization, agency, entity, etc. responsible for this project.	Washington State Conservation Commission Local conservation districts

<b>Part II</b> <b>Description, Timing and Cost</b>	
6. <b>Project Description</b> -- Please describe the project, what it is intended to accomplish, and the benefits that will accrue and to whom.	We will do outreach and provide cost share and technical assistance to landowners in the Chehalis Basin to install structures to protect livestock, equipment and farm supplies and products from losses due to flooding
7. <b>Project Timeline</b> -- Please describe the overall timeline for completion of the project as well any interim stages or phases.	We are already involved with outreach to the public and will continue until our current funding runs out. We will be able to start as soon as future funding is approved and will work on this issue until June 30 2017
8. <b>Project Cost and Funding</b> -- What is the cost of this project? What are the on-going maintenance and operation requirements? Is it clear who will be responsible for on-going maintenance and operations costs?	We are requesting \$500,000(½ million) for the biennium to continue this project. The landowner signs a operation and maintenance agreement when they sign the cost share agreement
9. <b>Other Funding</b> -- Please explain the extent to which other funding sources or funding partners are available.	This will continue the work we have done with state and federal funding from the last three years.
<b>Part III (**)</b> <b>Completion and Doability by June 30, 2017</b>	
10. <b>Project Completion</b> -- Does the funding requested complete (or substantially complete) a project that has already been started? If so, please explain.	Yes this is an ongoing project which continues to get interest and signups for assistance from the public
11. <b>Project Doable</b> -- Can this project or the stage/phase for which funding is sought be completed by June 30, 2017?	YES
12. <b>Project Impacts</b> -- Please identify how any project impacts will be mitigated and if that mitigation will be accomplished by June 30, 2017?	All projects are designed b an engineer to have no net rise in the floodplain. All material is removed from the existing floodplain not imported into the area
<b>Part IV (**)</b> <b>Benefits Stated and Quantified</b>	
13. <b>Emergency Response</b> -- Please explain how this project enhances our ability to respond in a flood emergency (e.g., does it keep critical access roads, transportation facilities, etc. open and functional.)	

<p>14. <b>Essential Infrastructure Protection</b> -- Please explain how this project protects essential infrastructure (as well the risks or consequences of not acting this funding cycle).</p>	<p>This project provides space above flood levels for the livestock and equipment to prevent loss of assets to the landowner and provides for public safety related to dead livestock polluting the waters downstream</p>
<p>15. <b>Public Health, Safety and Welfare</b> -- Please explain how this project protects public health, safety and welfare.</p>	<p>By protecting livestock and farm supplies we will protect downstream water quality and benefit public safety</p>
<p>16. <b>Residential, Commercial and/or Agricultural Protection</b> -- Please explain how this project protects residential, commercial and/or agricultural interests and communities and the benefits of acting (or consequences of not acting) this funding cycle. Consider factors like number of structures at risk, number of people at risk, historic frequency of flood damage, magnitude of benefit to be gained for the cost, etc.).</p>	
<p>17. <b>Other Project Impacts</b> -- Please explain how this project impacts or is potentially impacted by another project.</p>	<p>This funding will allow us to continue the projects we are working on.</p>
<p>18. <b>Anything Else</b> -- Please feel free to offer any additional information (e.g., photos, maps, drawings, etc.) that would be helpful to better understand the scope, timeline and benefits of this project.</p>
