July 17th 2008

Dear Mayor and Councilors From the City Of Raymond, And the Mayor and Councilors From the City Of South Bend;

The RWCC Reviewed all The Engineer Packets We Received on the upcoming Sewage Treatment Facility For the Raymond and South Bend Area. After Much Discussion The Committee Voted on The Firm of Gray & Osborne. The Decision was tough as we Received Many competitive Packets. We as a Committee sited these reasons for Finally and unanimously Picking Gray & Osborne.

- a. Gray & Osborne have already established a working relationship on this project and has been ongoing for the past 2 years we know them they no us
- b. They scored the highest from all the applicants packets that we received.. with many pluss suchs as; Qualified personnel, availability to our community,, Many other projects like ours , Very good references, over 10 year experience in Our area knowing our soils needs and people, a Good letter of interest detailed section describing the projects approach,, Cosmopolitan Engineering for outfall, river crossing and ps 11 modifications, There already on Board as the Facility Plan Consultants for Raymond and South Bend

So In closing the RWCC would like to Recommend to Raymond as the Lead City our Recommendation To Gray & Osborne Engineering Firm. We believe we have made the best choice for both Raymond and South Bend.

Thankyou : the RWCC Committee Please Present This Recommendation at Your Next Council Meeting
