**Subject:** Stormwater Control Transfer Program  
**Importance:** Normal

---

Hi Heather,

Hope that you are doing well. I am very much in favor of the Stormwater Control Transfer Program as I believe it could be a beneficial conservation strategy (on many levels). After reviewing the content, I really have only one question that was not transparent from my review. I am hoping that you may be able to assist.

Is there potential for the private sector to build, manage, and maintain “accredited” facilities for the public sector? The publication (15-10-017) seemed slated towards the private sector purchasing credits but not involved with potential for building the “banks.”

Sincerely,

**Sean Darcy**
