

An aerial photograph of a rural landscape. In the foreground, there's a large green field with a small farmstead including a barn and several houses. A winding river or stream flows through the middle ground, surrounded by more green fields and some trees. In the background, there are rolling hills and more fields. The sky is not visible. The image is overlaid with a green header bar at the top and a blue footer bar at the bottom.

# Chehalis Basin Strategy ASRP 2020 Grant Round Summary

June 4, 2020

Chehalis Basin Board Meeting

# Available Funding

## 19-21 Budget:

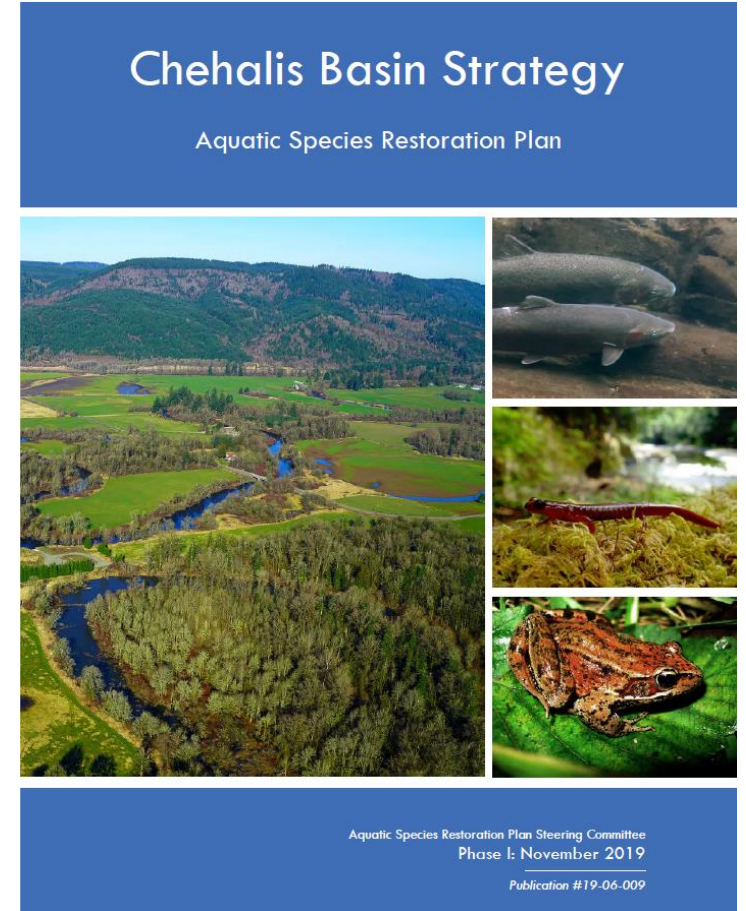

- ~\$5 Million for new projects
  - Includes reach scale, protection, barrier corrections, etc.
- Steering Committee designed an adaptable grant round to:
  - Identify opportunities that may already exist in priority areas
  - Promote interest in developing new projects for ASRP implementation

Wynoochee aerial drone footage, WDFW

# Request For Proposals

- Included 2 project classifications:
  - On the Ground
  - Project Development
- 28 Proposals were submitted
  - 16 On the Ground
  - 12 Project Development

# Funding Summary

<b>TOTAL ASK - On the Ground</b>	<b>\$5,979,698</b>
<b>Funding Allocation</b>	<b>\$3,566,479</b>
<b>TOTAL ASK - Project Development</b>	<b>\$1,588,267</b>
<b>Funding Allocation</b>	<b>\$1,214,897</b>
<b>TOTAL ASK</b>	<b>\$7,567,965</b>
<b>TOTAL AVAILABLE (19-21)</b>	<b>\$5,000,000</b>
<b>TOTAL FUNDING</b>	<b>\$4,781,376</b>
<b>TOTAL MATCH LEVERAGED</b>	<b>\$661,956</b>

# Projects Funded: On the Ground

10 of 16 proposals funded

## Project actions funded:

- 2 Oregon Spotted Frog focused projects
  - Breeding site protection in the Black River
- 4 Acquisitions
  - Mainstem relic oxbow channels low in the floodplain near Oakville
  - Sections of East Fork Satsop, West Fork Satsop
- 2 Reach scale project designs
  - Satsop River design work
- 2-4 managed forest instream reach scale project designs
- 2 Barriers corrected and associated reaches restored
  - West Fork Chehalis Falls correction

Oregon Spotted Frog egg mass, Salmon Creek acquisition site

Relic oxbow channel in the Davis Creek Wildlife Area 5

# Projects Funded: Project Development

10 of 12 proposals funded

## **Project actions funded:**

- New reach scale projects initiated
- Dedicated capacity roles supported
- Experimental restoration concepts developed

# Expected Results: Project Development

**By the end of this biennium (June 2021), the following deliverables are expected through project development funding:**

- **20+ miles of Scenario 1 reach scale projects will be initiated**
  - Landowner acknowledgement forms signed to secure interest and participation in engaging on new reach scale projects early in the project process
  - Conceptual design elements will be identified
- **Diverse project sponsorship will be engaged in management of new projects**
  - At least 6 different sponsors are expected to manage new projects they develop through the coming year
- **Additional project focused capacity will be secured**
- **Experimental restoration questions will be answered**
  - 5-10 beaver dam analogue projects will be construction ready
  - Water temperature reduction methods will be designed

# 2020 Grant Round Summary

- Funding both on the ground and project development actions
- Projects are in priority areas identified in ASRP
- ASRP is ramping up implementation efforts with diverse sponsorship
