RE: County Comprehensive Plan

Dear Franklin County Commissioners:

We are writing to you to ask for consideration of excluding a portion of our property from the Urban Growth boundary lines being considered by the city and being forwarded to you for final approval. This property lays north of Clark Road, the reasons for our request follows:

- A. This property contains an irrigation holding and receiving pond, which is used for re-pumping of the irrigation of approximately 1100 acres plus or minus.
- B. We are being asked to provide a large amount of the total acres under consideration for the new boundaries.
- C. We are a three-generation farming family (soon to be four) who are more interested in preserving the land to produce food for the multitudes, instead of having it developed for houses and strip malls.
- D. Several other farmers to the west, who are not currently included in the new boundaries, would like to be. For example, Harvey Shumway and Randy Mullen have acreage that equals the amount of acreage, or more, that we would like to have removed.
- E. Included are maps and photos of the subject property

We look forward to being able to voice our concerns, as well as having our representative speak, to you and members of the Planning Commission at your next hearing discussing the new boundaries. We are writing to you because we feel that the city of Pasco is fast tracking this matter.

Please contact us and let us know when the upcoming hearings will be held pertaining to this very important issue.

Sincerely,

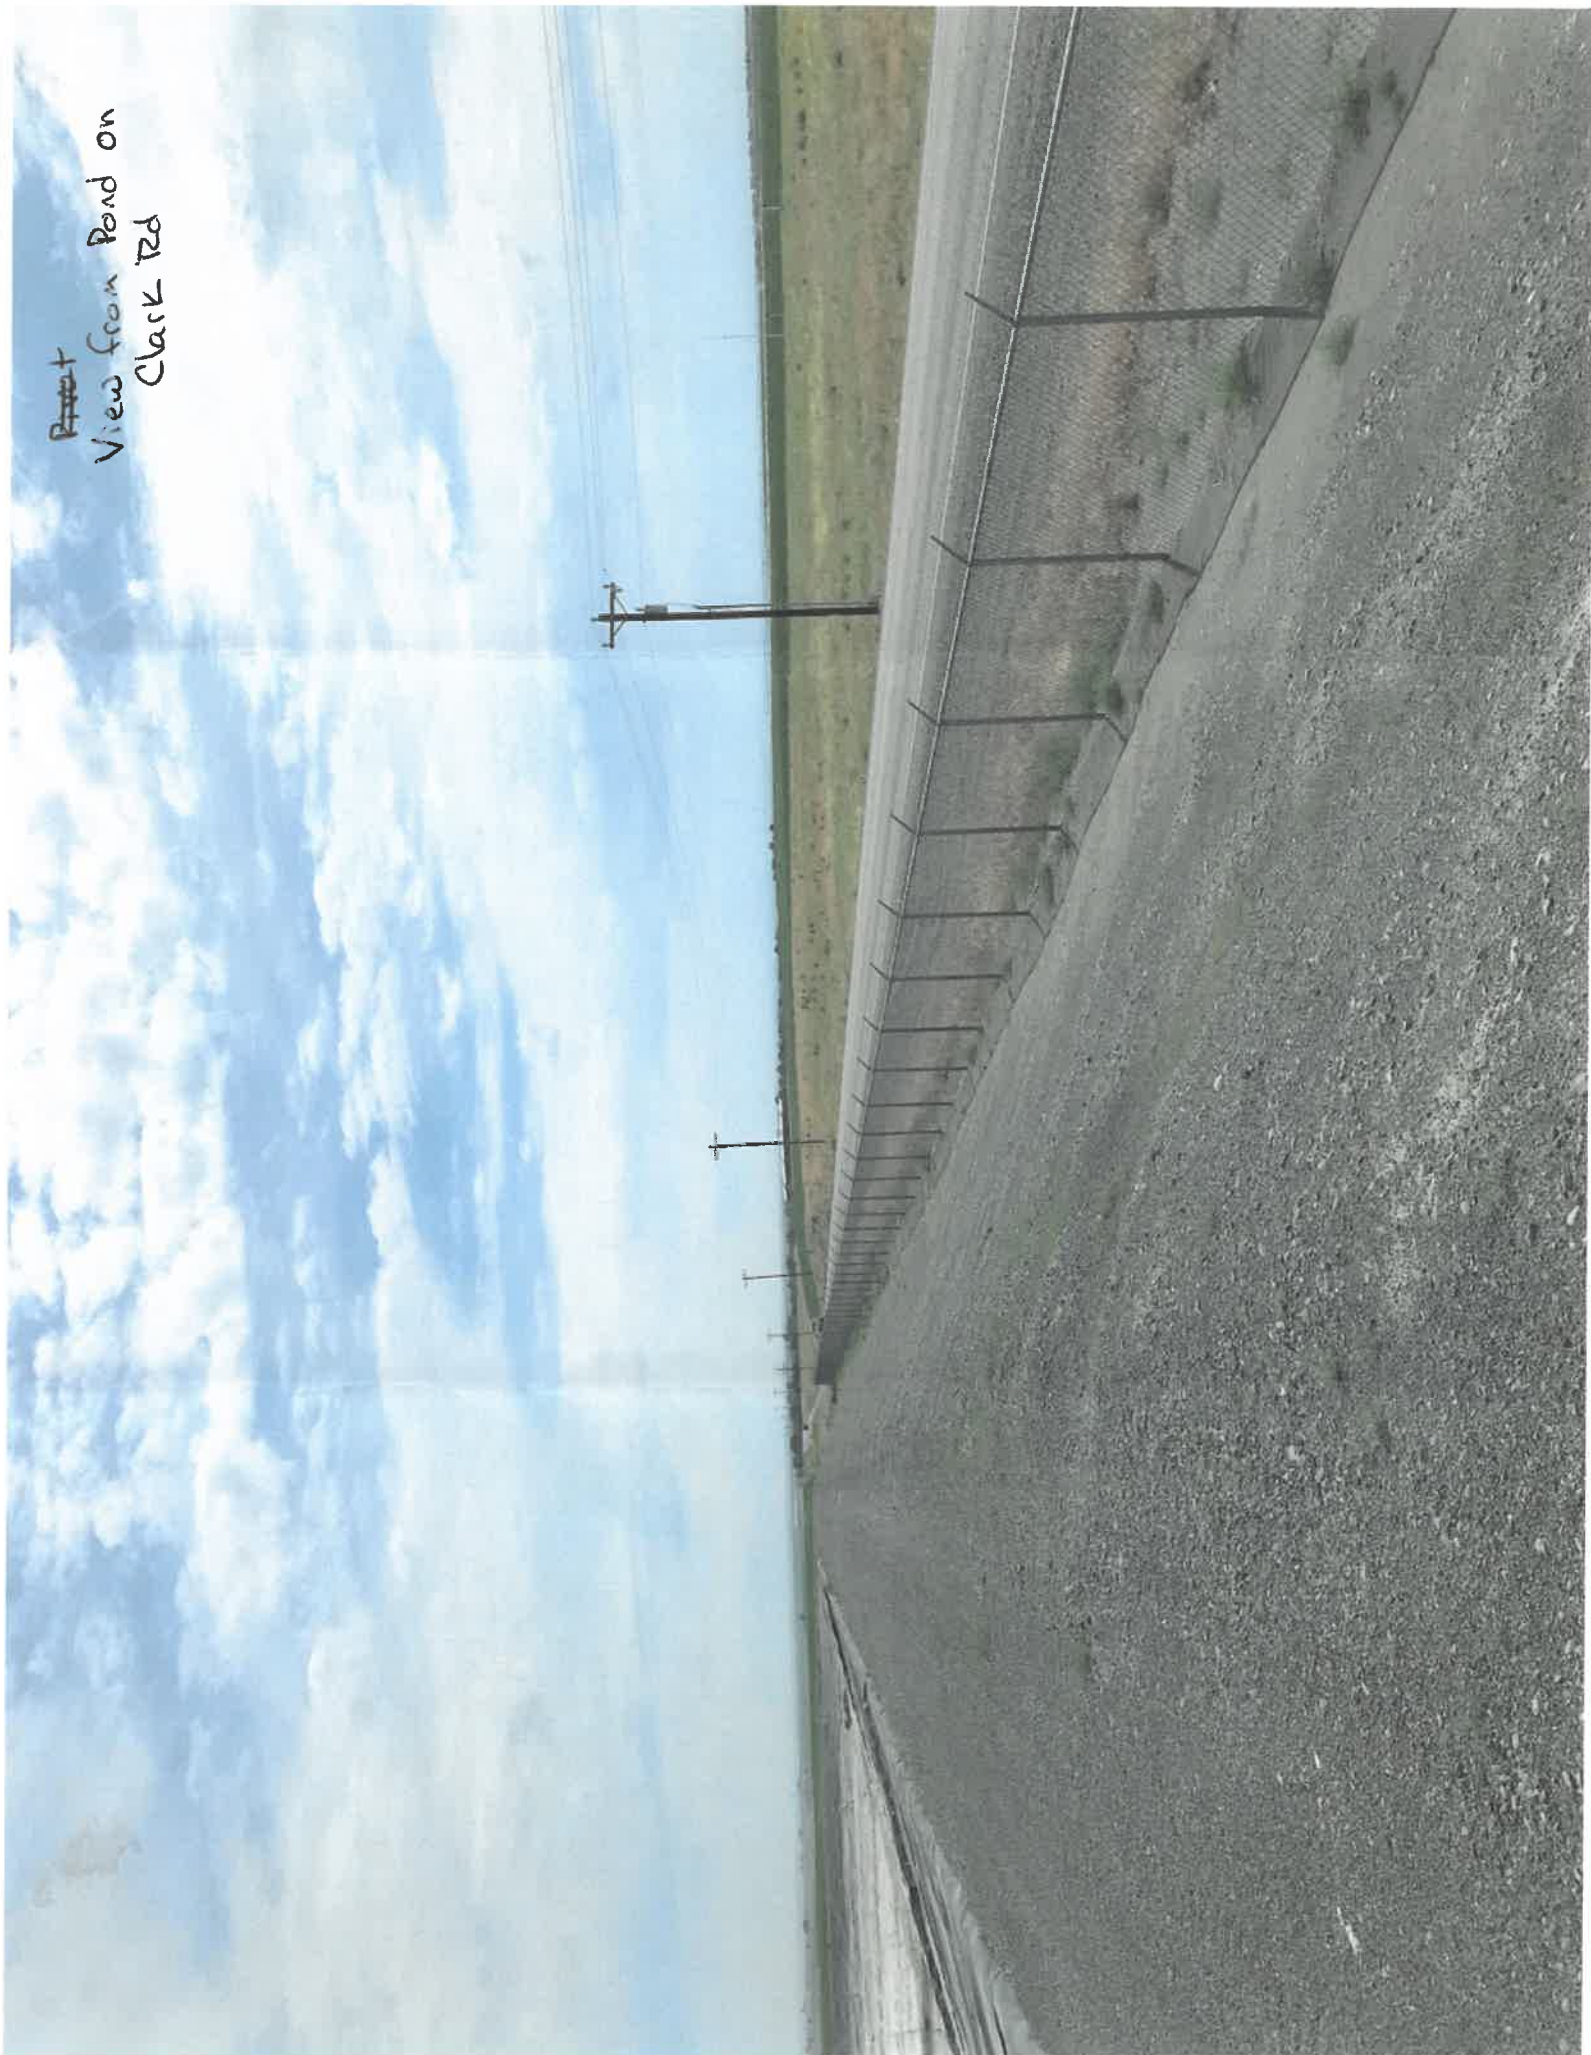

Glen Roundy
