Dear Ms. Stickney,

Please find attached Futurewise's comment letter to the Franklin County Planning Commission on CPA 2018-03 the proposed City of Pasco urban growth area (UGA) expansion. We appreciate the opportunity to comment and the additional analysis that you have provided on behalf of the County; however, Futurewise recommends that the proposed City of Pasco UGA expansion be denied for three independent reasons: the expansion is oversized, the expansion will lead to the conversion of agricultural lands with adverse impacts on the Franklin County economy, and the expansion will adversely impact the operations and potential for expansion of the Tri-Cities Airport again adversely impacting the county economy. Our concerns are detailed in the attached letter.

Thank you for your consideration. Enclosures to follow in a separate email.
