GHCD concurs that sponsorship would align well with our existing projects in the Satsop and we are willing to accept ownership of the project.

Anthony and Rob. We have discussed changing sponsorship for [20-1883](#) from Grays Harbor County (Rob) to Grays Harbor Conservation District (Anthony). Our discussions have been largely along the lines that:

- Doing so would better align with other Satsop work Grays Harbor Conservation District is already sponsor for.
- Looking forward the type of work envisioned for the lower Satsop is increasingly less in alignment with the type of work Grays Harbor County (Public Works Division) regularly oversees and implements.

Question – Can you please reply with your concurrence that you’d like to change sponsorship as described and would like me to bring the matter before the Flood Authority at their next meeting (5-19-2022)?

Thanks. Look forward to hearing from you.

Scott

Scott,

Grays Harbor County agrees that this project aligns better with the work/services the GHCD is currently providing.

Thanks,

Rob Wilson, PE

County Engineer
Grays Harbor County Public Works
