**Subject:** Ecology's Response to SSA's June 27th Letter

The purpose of this email is to confirm that the information in your June 27, 2012 letter regarding the Gateway Pacific Terminal Project is correct. Ecology is moving forward with SEPA, but would like SSA to withdraw the current request for Section 401 Water Quality Certification (401 Certification) and JARPA until the Draft EIS is available. Although your letter states that the JARPA application will be withdrawn, we understand from our June 25 meeting that SSA also intends to withdraw the May 29, 2012 request for a 401 Certification at the same time as the JARPA. Please contact me if you have any question.

Sincerely,

Loree' Randall
