

CERTIFICATE OF APPRECIATION

AWARDED TO

Kris Koski

Thank you for your **Dedication**,
Thoughtfulness,
and **Commitment** to the

Chehalis River Basin Flood Authority.

Kris -- We will miss you as an integral member of the Flood Authority (FA). Your input, expertise, as well as your presence brought so much credibility to the FA efforts. The port is so fortunate to have you as a part of their team! Remember, our meetings are public so you are welcome to attend ANY TIME!
Sincerely, Edna

Kris – It has been a pleasure to work with you since your days at KPFF. You’ve been essential to the NS Levee. The citizens (and leaders) of Aberdeen are all the better for your role(s) and leadership. In addition, beyond the NS Levee, your participation on the Flood Authority has not gone unnoticed. Your contributions and perspectives have aided the Flood Authority in crisping its messages and focus relative to local projects. You’ve also helped us to broaden the reach of the Flood Warning System. You’re a quality on-the-ground engineer and a strategic thinker. This is a powerful combination. The Port of Grays Harbor will certainly benefit from your hire. All the best to you. Scott Boettcher (Staff, Flood Authority)
