

## **Flood Authority Policy**

### ***Process for Addressing Requests for Endorsement of Projects***

Adopted March 20, 2014

---

The Flood Authority will consider endorsing an individual project at the request of a project sponsor if it has:

- (1) been reviewed by its Chehalis Basin Projects Committee;
- (2) there is a clear flood hazard/flood damage reduction benefit;
- (3) there is no increase in the potential for flood damage upstream or downstream; and
- (4) there are no unmitigable adverse environmental impacts or significant uncertainty regarding potential environmental impacts.
