SUBJECT: Status of Current Local Projects

The following will be discussed at Thursday's Flood Authority meeting. Please feel free to contact Katrina (206/801-2812, katrina.sukola@icf.com) with questions.

Updates

1. On August 1, 2024, the Chehalis Basin Board approved using \$363,000 in unallocated 2023-25 funds to support capital improvements identified in the Flood Warning System's five-year capital improvement plan. Improvements to be funded by the \$363,000 include:
 - adding a tide gage and three rain gages to the lower basin to support the National Weather Service's effort to develop Chehalis River forecasts for the lower basin.
 - developing inundation maps for the Skookumchuck River.
2. Two projects in Cosmopolis have been brought to current, i.e., bills paid and PRISM reports submitted, paving the way to formally shift sponsorship to Hoquiam. Amendments to do so are underway.
3. Below is summary of projects that started in the biennium (Table 1) compared to projects still in progress (Table 2).
