1. At 9-19-2024 Flood Authority meeting, Flood Authority members agreed to advancing another round of local resolutions based on updated DRAFT resolution [here](#).
2. Recently adopted new resolutions are as follows:
 - Chehalis – [Here](#).
 - Pe Ell – [Here](#).
3. Resolutions are important for many reasons, including showing basin-wide support for the basin-wide flood and fish effort as it again seeks another round of biennial appropriations.

NOTE: Local resolutions Library ([here](#)) contain past adopted resolutions from basin governments.
