Q3: c. Did you sign up to receive email gage alerts as an Individual or on behalf of a larger Organization? Organization

Q4: d. Please list your primary reasons for signing up to receive email gage alerts?

To provide up to date information to our employees on river conditions that could effect their work or home. I also track the status of the Chehalis River for informational purposes pertaining to a potential water retention facility in the upper basin.

Q5: e. What is your primary method for accessing and viewing email gage alerts? Check all that apply. Desktop computer, Laptop computer, Smartphone

PAGE 3: Questions, continued

Q6: a. Did you receive any email gage alerts during this time (between 11/13/2015 and 11/19/2015)? Yes

Q7: b. If Yes, please explain how the alert notification information you received in the alert notification email was or was not useful for you?

I was able to alert employees of the high waters and monitor how the weather effected the Chehalis River Basin.

PAGE 4: Questions, continued

Q8: 3. Please list your top positives about the email gage alerts flood warning system.

The email alert provides me immediate notification of the high waters.

Q9: 4. Please list your top areas needing improvement about the email gage alerts flood warning system.

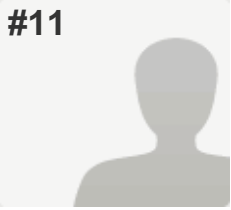

It would be helpful if the alert provided the current water level. It tells what the stage is set at and the highest stage, but not the current level.

Q10: 5. May we contact you to discuss further any of your answers? (If Yes, then please provide your preferred contact information -- telephone number, email) Yes,
Telephone number and email please (360) 740-2412

PAGE 2: Questions

Q1: a. Are you Male or Female? Female

Q2: b. What age range do you fall into? 61 to 70

Q3: c. Did you sign up to receive email gage alerts as an Individual or on behalf of a larger Organization? Individual

Q4: d. Please list your primary reasons for signing up to receive email gage alerts?

I live in one of those "commonly flooded" areas and need to advance-plan access to work.

Q5: e. What is your primary method for accessing and viewing email gage alerts? Check all that apply. Desktop computer

PAGE 3: Questions, continued

Q6: a. Did you receive any email gage alerts during this time (between 11/13/2015 and 11/19/2015)? Yes

Q7: b. If Yes, please explain how the alert notification information you received in the alert notification email was or was not useful for you?

The flooding pattern on my impacted road (Independence) is predictable based on when the Chehalis River hits flood stage at Grand Mound. Also the predicted crest is significant so I can determine how long I'm going to have to travel alternate routes, and which alternate routes (if any) are available to me.

PAGE 4: Questions, continued

Q8: 3. Please list your top positives about the email gage alerts flood warning system.

It beats trying to get the info from the local radio stations which are all Centralia-centric (and not Rochester- and downstream- centric). It makes it much easier to make travel (work/medical/grocery/other) plans.

Q9: 4. Please list your top areas needing improvement about the email gage alerts flood warning system.

I would love an alert from the bridge at Independence.

Q10: 5. May we contact you to discuss further any of your answers? (If Yes, then please provide your preferred contact information -- telephone number, email)

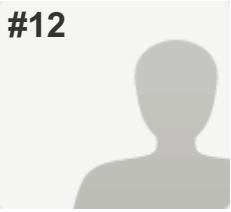

Yes,

Telephone number and email please
Laurel Smith, (360) 273 5941 (work; and I'm only there if I can get through the flood);
LaurelSmith@LaurelSmithLaw.com

Q11: 6. Would you be interested in receiving other surveys designed to help us better understand how people use the Chehalis River Basin Flood Warning System and its various components?

Yes
