Subject: Twin Cities Project Technical/Coordination meeting - SAVE THE DATE

Greetings,

I wanted to let you know about an upcoming information and discussion session with the U.S. Army Corps of Engineers and State of Washington. The purpose is to provide a review of the Corps' progress on the design evaluation work currently underway for the Twin Cities Project.

The agenda and format is still in development, but there will be topics related to both policy and technical interests. It will include a presentation and discussion about an updated project schedule and project management plan, and the Corp's progress on the project's hydraulic model.

The session will be held on January 28 from 9 a.m. - noon in the Twin Cities area (location to be determined). More information and a final agenda will follow in early January.

Attached is a list of those who have received this notice (note: Corps of Engineers staff will be invited by a separate email). If you see someone is missing from the list who may be interested in this meeting, please let me know.

Feel free to contact me if you have any questions, or would like your name removed from this list.

John P. Donahue, P.E.

Project Manager - Non-Federal Sponsor

Twin Cities Flood Damage Reduction Project
