WEBS

Washington's Electronic Business Solution

Washington's Electronic Business Solution (WEBS) is the state's online vendor registration and bid notification system. WEBS offers one location where vendors can receive all bid notifications from Washington State agencies, as well as notifications from other local governments who choose to WEBS.

WEBS can provide vendors with an automatic email notification of new opportunities when a bid for one of their chosen commodities is posted. WEBS is *free* to vendors and government entities.

Registration Process

Go to fortress.wa.gov/ga/webs and select register now.

To complete the WEBS registration process you will be asked to provide:

- Company Information including your Federal Tax ID number
- Contact Information
- Ownership Information
    – Publically/Privately held, company ownership demographics, certifications, (veteran, small business, MBE), etc.
- Goods and services selection by searching for commodity codes.
    – To quickly register, just add one NIGP code— you can login and add more after registering.
- Geographic Service Areas – Counties in Washington where you want to provide goods/services.

Once registered as the administrator, you can change this information by logging in and using the manage profile option. Find more tips at: **des.wa.gov/services/ContractingPurchasing/ Business/Pages/WEBSRegistration.aspx**
