Note: The four presenters have been asked to address the following questions:

1. What do you use prioritization for - retrofits, new development and/or redevelopment?
2. How did you develop your prioritization criteria?
3. What are the criteria?
4. How do you apply the criteria – weighting, etc.?
5. Have you implemented policy or prioritized budget based on the prioritization (have you used the prioritization)?
6. Who were the stakeholders when you set out to prioritize?
7. What data sources did you use, and how readily available is the data?

This information from the presenters and the ensuing discussion will be compiled in a reference document for the Working Group immediately following the meeting.
