

# Watershed Prioritization Criteria Review--Flow Control and Runoff Treatment

(3-31-15)

Information Category	Data Type	Flow Control Prioritization Status			Runoff Treatment Prioritization Status			Comments/Notes
		Essential	Helpful	Unnec	Essential	Helpful	Unnec	
Existing/current land cover data	% forest, pasture, landscaping, TIA	X						
Existing/current land use data	% commercial, industrial, roads, SFR, MFR, parks, undeveloped		X					
Zoned land use/land cover	zoning designations - commercial, industrial, SFR, MFR, parks	X						
Physcial parameters	Watershed area data: inside city limits/outside city limits - stream area inside and outside city	X						
Physcial parameters	stream length--within limits vs. outside - total stream miles		X					
Physcial parameters	Class II (Type F) stream length (within limits vs. outside) - total stream miles		X					
Fish Use	Significant salmonid use		X					
Fish Use	Current Chinook salmon use	X						
Fish Use	Current Coho salmon use	X						
Fish Use	Other salmonid use	X						
Fish Use	Potential fish use	X						
Habitat	Naturally occurring LWD		X					
Habitat	Tree canopy %	X						
Habitat	% of intact 300-foot vegetated stream buffer		X					
Habitat	% of intact 100-foot vegetated stream buffer	X						
Water Quality	BIBI where appropriate to measure aquatic health	X						
Water Quality	Shellfish bed health - shellfish bed closure(s)	X						
Water Quality	Known WQ impairments - State WQ Assessment (cat 4a, 4b, 4c, or 5)	X						
Water Quality	High temperature data		X
