

ASRP IMPLEMENTATION STRUCTURE

ROLL OUT UPDATES

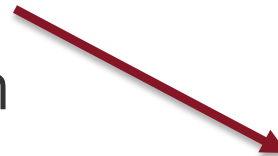

10/7/21

IMPLEMENTATION ROLL-OUT UPDATES

- Website updates
- Implementation webinars
- Project Sponsor Request for Qualifications (RFQ)

WEBSITE UPDATES

- ***Priority areas and actions*** to guide project development
- ***Webinar and mailing list*** to stay informed of program updates
- ***Detailed process information*** to know how individuals and organizations can get involved

Implementing Habitat Projects

The [Aquatic Species Restoration Plan \(ASRP\)](#) relies on partnerships with local project sponsors and landowners to be successful. Starting in 2021, the program will roll out a new project implementation model that supports organizations to manage projects, and provides funding to restore and protect priority habitats throughout the Chehalis Basin.

Upcoming Priority Areas and Actions

[See where the ASRP is focusing upcoming project funding in the basin.](#)

Get Involved: Information for Project Implementers

Are you or your organization interested in implementing habitat projects in the Chehalis Basin?

- Check out our upcoming [informational webinars](#) to learn more about how to get involved. ([View a recording](#) of September 24, 2021 webinar)
- Regional Implementation Teams will kick off soon throughout the basin. [Join our project sponsor-focused mailing lists](#) to get updates on how to implement projects as part of a local team.

Aquatic Species Restoration Plan Overview

The ASRP is overseen by a [Steering Committee](#) who has collaboratively developed program priorities and a structure for how projects will be developed and funded to achieve program goals. More details are provided in materials available for download, below.
