

Better Understanding of Water Use Through OpenET Columbia River Policy Advisory Group

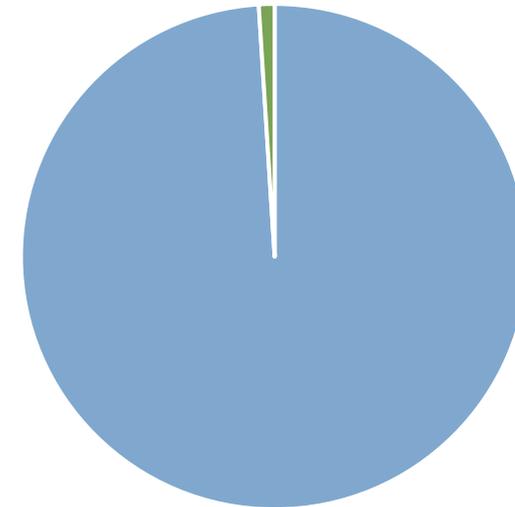

Andrea Lauden and Jeff Marti

November 3, 2022

In Washington....

Of ~225,000 water rights and claims,
less than 1% of water users report
metering data

Meter Recording and Reporting

■ Don't report ■ Do report

Columbia River Basin Evapotranspiration Project

Towards Consistent, Accepted, and Readily Available Watershed Scale Summaries of Evapotranspiration and Irrigated Lands Data for Improved Water Management in the Columbia River Basin

Funded by NASA Western Water Applications Office

Select Sub-Watershed (HU 12) Summaries

Specify your area of interest to filter the **Ensemble** Evapotranspiration (ET) sub-watershed summaries view on the map and view results in a table where you can download the results using the table settings.

[OpenET](#) provides ET data from multiple satellite-driven models, and also calculates a single "ensemble value" from those models.

Location

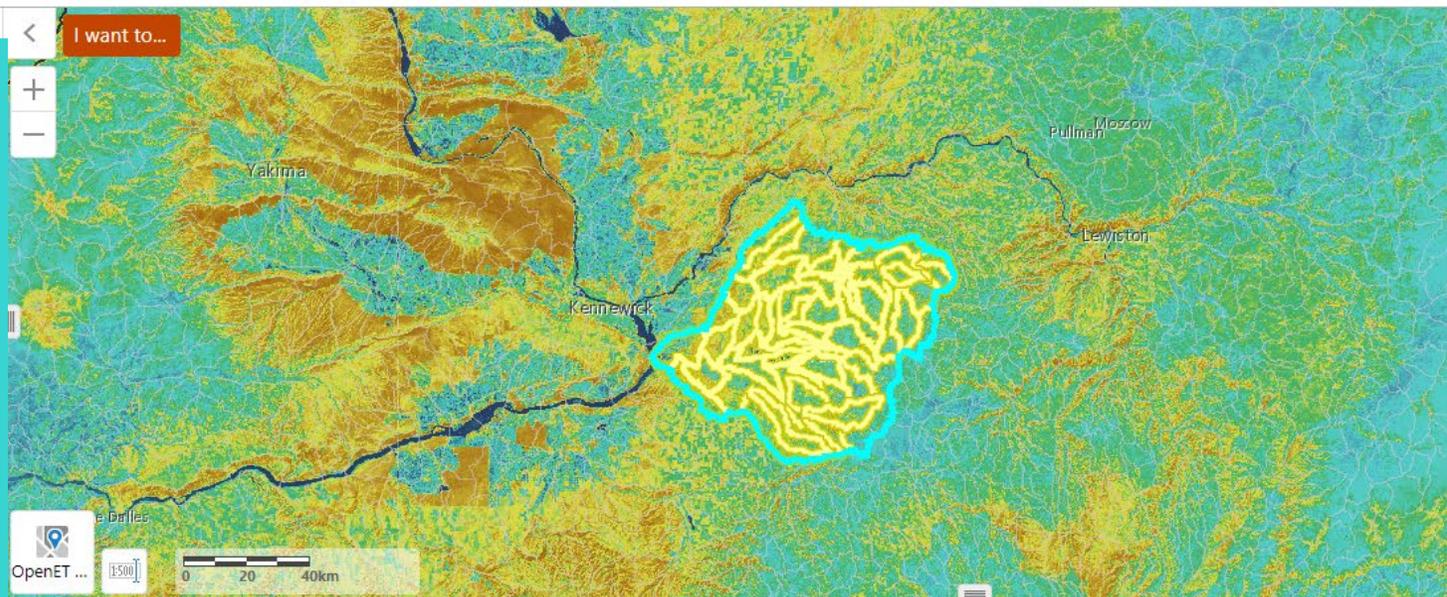

Use Map Basin Sub-basin Watershed

Select Sub-basin (HU8) Walla Walla (17070102)

Year 2021

2016 2021

Show Selected HUC 12 Summaries in Results Table

Selected Huc 12 Summaries (44)

Resources and Definitions

ACRES_FTR_GEOM – Total area of irrigated field boundaries (geometry area, not pixel area) used to derive estimates of ET, PPT, and consumptive use from irrigation volumes.

EFF_PPT_{YR}_acre_ft – Total effective PPT (70% of gridMET PPT, Nov-Oct) volume in acre feet.

ETa_{MODEL}_GS{YR}_acre_ft – Total actual ET (growing season, Apr-Oct) volume in acre feet.

HUC12_Code – the HUC 12 code identifier

HUC12_Name – the HUC 12 name identifier

IRR_CU_{MODEL}_GS{YR}_acre_ft – Total consumptive use from irrigation (ET – Eff. PPT) volume in acre-ft.

TNMID – HUC 12 identifier used to join HUC 12 ET statistics back to the

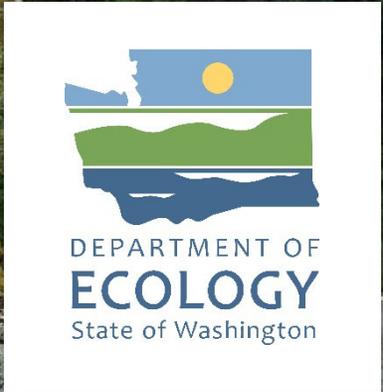

HUC 12 Summaries

Adopting OpenET for Water Resources Management in Washington

- Incorporate OpenET into revised water right guidance for quantifying consumptive use.
- Seek funding for "flux" stations to support further validation of OpenET in the PNW.
- Evaluate applications for OpenET at the field and watershed level.

Thank you
