MOTION #2: REQUIREMENT OF SW-846 COMPANION PREPARATION METHODS FOR METALS TESTING IN CANNABIS AND CANNABIS RELATED PRODUCTS.

This motion requires that the Preparation Method(s) for Metals testing in Cannabis and Cannabis Products be one of the following SW-846 Companion Methods: EPA 3031, 3050B, or 3052 with the understanding that any subsequent versions which are published will replace the current method and labs will be required to update their methodology accordingly.
