Joint Meeting #1 Recap

Joint meeting #1 recap

- Draft materials released May 1
 - [Document 1: Best practice policies for avoiding leakage](#)
 - [Document 2: Methods for developing greenhouse gas benchmarks](#)
- Ecology presented on draft materials
- Members asked clarifying questions
- Deadlines for feedback (interim and final)

Discussion part 1

Document 1: Best practices for avoiding leakage

Leakage discussion – Mural Board

1. Which draft findings in the report do you find most compelling and why?
2. What are other important policy design aspects related to leakage or benchmarking were not covered in the two documents?
3. What are other examples of global best practice policies that should be considered by Ecology?
4. Are there any specific characteristics of Washington EITs or the Cap-and-Invest Program that need to be considered when reviewing best practice policies?

Discussion part 2

Document 2: Methods for developing greenhouse gas benchmarks, including use of best available technology

Benchmarking discussion – Mural Board

1. Which draft findings in the report do you find most compelling and why?
2. What other important policy design aspects related to benchmarking were not covered in the two documents?
3. What are other examples of global best practice policies that should be considered by Ecology?
4. Are there any specific characteristics of Washington EITs or the Cap-and-Invest Program that need to be considered when reviewing best practice policies?

Polling Activity

Online polling

- We will now use PollEverywhere to get your thoughts on three questions, that come from the joint meeting and this meeting.
- When prompted, please use a phone or browser screen to access the polls using the QR code or website address: Pollev.com/lavishnature521
- You will be initially asked to share your name, but this can be skipped
- Responses will be recorded in PollEverywhere
