Funding Programs

- Water Quality Combined Financial Assistance Program
- Coastal Protection Fund - Terry Husseman Account Grant Program

Water Quality Combined Funding Program (WQC)

Competitive funding program for

**PROJECTS THAT IMPROVE AND
PROTECT WATER QUALITY**

Streamlined Funding

Four funding programs in one application on a predictable annual funding cycle.

Clean Water State Revolving Fund (CWSRF)

Federal funds provide low-interest loans for:

- Wastewater facilities.
- On-site sewage systems.
- Stormwater facilities.
- Nonpoint source activities.

Centennial Clean Water Grants

State grants for:

- Wastewater facilities (for financially distressed communities).
 - Nonpoint source activities.
 - On-site sewage systems.

Clean Water Act Section 319 Grants

Federal grants for:

- Nonpoint source pollution control activities.

Stormwater Financial Assistance (SFAP)

State grants for:

- Stormwater facilities
- Stormwater pollution control.

Eligible Projects

- Nonpoint source activity
 - Agricultural best management practices design and implementation.
 - Irrigation efficiency projects.
 - Demonstration projects (as approved by Ecology).
 - Groundwater/aquifer/source water/wellhead planning and/or protection.
 - Lake restoration planning and implementation.
 - Riparian/wetland restoration planning and implementation.
 - Public outreach and education.
 - Total maximum daily load (TMDL) support.
 - Water quality monitoring.
 - Watershed planning and implementation.

Additional Projects Types

- Stormwater facility
- Stormwater activity
- Wastewater facility
- Onsite Sewage System

See FY20 Funding Guidelines for more details.

Eligible Applicants

- Counties, cities, and towns.
- Water districts and sewer districts.
- Port districts.
- Conservation districts.
- Irrigation districts.
- Quasi-municipal corporations.
- Federally recognized tribes.
- Washington State institutions of higher education.
- Not-for-profit organizations (only eligible for Section 319 funding).

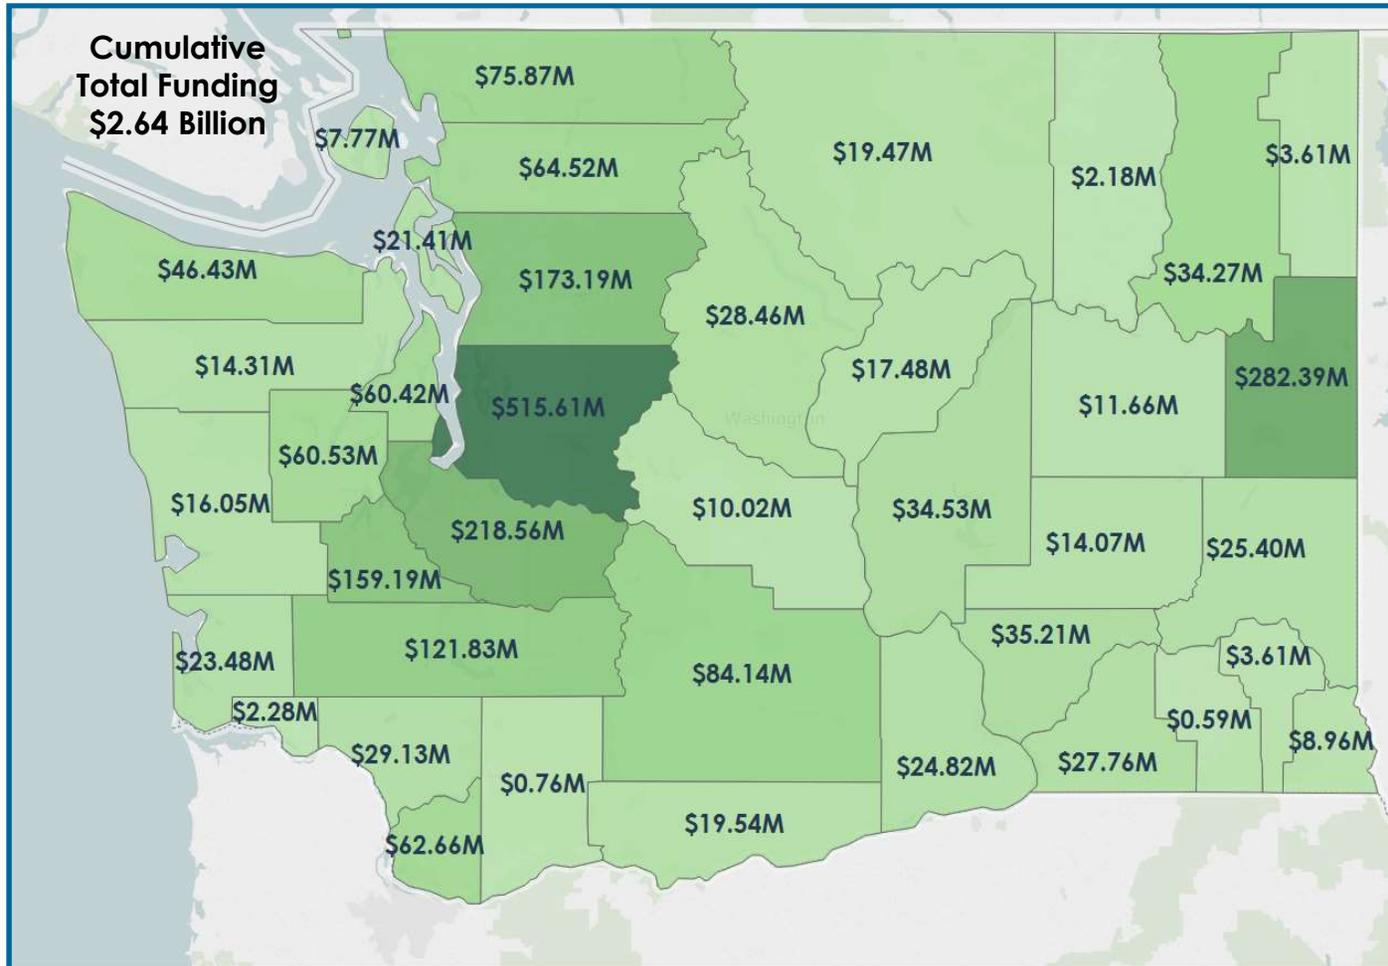

FY 20 Funding Cycle

- **Amount of funding available:** Varies. Ranges from \$100 million to \$200 million annually.
- **Grant award limit:** Varies.
- **Amount of matching funds required:** Up to 25 percent match required.
- **Application dates:** August 13 – October 15
- **Grant Agreement starts:** July 2019 – January 2020

Total WQC Funding Provided

1988 to 2017

Salmon Creek Restoration

Terry Husseman Account (THA)

Supports locally sponsored

**ON-THE-GROUND RESTORATION
OR ENHANCEMENT PROJECTS**

Funding

- **Funded by:** Payments from penalties issued for water quality violations of the Water Pollution Control Act.
- **Managed by:** Shorelands and Environmental Assistance Program (SEA)

Typical Projects Address

- Water quality issues
- Fish and wild life habitat protection or enhancement
- Fish and wild life habitat protection or enhancement in or adjacent to waters of the state.

Eligible Applicants

- Washington counties, cities, and municipalities
- Other local governments:
 - Conservation Districts
 - Special Purpose Districts (i.e., Ports and Public Utility Districts)
- Federally recognized Tribal governments
- State agencies
- Regional Fisheries Enhancement Groups (RFEG)

Funding Cycle

- **Amount of funding available:** Varies based on current THA balance levels in a region's sub-account.
- **Grant award limit:** Varies depending on funding source and project type. Awards can be a maximum of \$50,000. The typical grant award is less than \$20,000.
- **No match requirements.**
- **Funding dates:** Anticipate September 15 through October 15, 2018.

Save the Date!

Event	Date
WQC Applications Open in EAGL	August 13, 2018
WQC Applicant Workshop in Ellensburg <i>Central Washington University</i>	August 15, 2018 <i>9:00 AM – 1:00 PM</i>
WQC Applicant Workshop in Lacey <i>St. Martin's University</i>	August 22, 2018 <i>9:00 AM – 1:00 PM</i>
THA Applications Open in EAGL	September 2018
THA Applications Due in EAGL	October 2018
WQC Applications Due in EAGL	October 15, 2018 5:00 PM
