

Well & Septic Inspection Certification

Learn how to inspect and maintain your own gravity-fed septic system and well

Get certified to inspect your septic system* save money, and learn how to:

- ◇ Prevent costly repairs
- ◇ Protect your drinking water
- ◇ Maintain your well and septic systems.

Well & Septic Inspection Certification and Maintenance for Homeowners

**System must be owner occupied and gravity fed; not valid for sale of house. Homeowner can self-inspect every other inspection, alternating with a certified O&M professional.*
