

# Long-Term Strategy Assessment Next Steps

July 11, 2019

# Chehalis Basin Strategy Long-Term Strategy Assessment

# More work ahead needed on...

## Facility Costs & Operations

Feasibility of options for mitigating impacts identified in EIS, and their relationship to ASRP

Building landowner willingness for ASRP & CFAR

Partnering with local governments on current and future approaches to land uses

Calibrating overall level of investment relative to overall benefits of integrated strategy

# More work continued...

Sequencing priority investments and providing assurances of continued future support

Defining long-term governance, roles & responsibilities for management decisions

Defining and quantifying success of actions

Community outreach and education

Making the case for long-term funding

# Approaches will differ by issue...

For each of these issues, the Board, Staff, and Stakeholders will need to collaborate on:

- Generating ideas
- Filling information gaps
- Exploring feasibility
- Evaluating desirability
- Understanding others' views and positions
- Revising ideas
- Finalizing recommendations

To enable the Board to reach informed, consensus-based decisions for the long-term strategy assessment
