

## **PFAS Alternatives Assessment**

### **January 7, 2019 update:**

Links to the Ecology PFAS AA Statement of Work, Deliverables, Timeline, Budget, and RFP background documents (these documents have been replaced by updated documents; see the February 13, 2019 update). These documents were provided to the list of approved contractors eligible to conduct work to support Ecology's PFAS AA. Ecology and Department of Health will evaluate and score the bids received, select the successful bidder, and get the project underway.
