The Department of Ecology is hosting this Nutrient Forum meeting to discuss the results of the bounding scenarios conducted with the Salish Sea Model and to discuss Ecology’s response to the recent AKART petition.

To Participate:
This public meeting will be held at the Red Lion Hotel Seattle Airport SeaTac (18220 International Blvd, Seattle WA), and conducted as an interactive webinar (WebEx). Participants can attend in person or by using WebEx. Please RSVP online to let us know how you will be attending. To participate by WebEx, you must register prior to the meeting.

**Agenda**

*Note: Times may vary according to questions and discussion during topic presentations.*

</table>
| 10:15 a.m.    | **Using Bounding Scenarios to Understand Nutrient Inputs in Puget Sound** (Anise Ahmed) | - Recap of the Salish Sea Model: What is it? What inputs were used?  
- Impacts of varying biological nitrogen removal (BNR) sources.  
- Predicted improvement scenarios. |
| 11:30 a.m.    | **Salish Sea Model Result Web Map Overview** (Sheelagh McCarthy)        | - Introduction to ArcGIS online mapping tool to communicate Salish Sea modeling and recent bounding scenario results. |
| 12:00 p.m.    | **Break for Lunch** *(lunch will not be provided)*                     |                                                   |
| 1:00 p.m.     | **Ecology Response to AKART Petition** (Ellie Ott)                     | - [Original petition from NWEA](#)  
- [Ecology response letter](#) |
| 2:15 p.m.     | **Questions & Discussion**                                             |                                                   |
| 2:45 p.m.     | **Next steps** (Susan Braley)                                          | - Upcoming meetings in 2019.                                                                     |
| 3:00 p.m.     | **Adjourn**                                                            |                                                   |

2019 Forum Schedule

☐ Feb 6, Bounding Scenarios
☐ March 6, Nutrient Management in Other States
☐ April 30, Optimization Scenarios
☐ June 4, Puget Sound Implementation Examples
☐ July 17, Marine Water Quality Update
☐ Aug 7, Costs and Creative Solutions
