September 1, 2015 Rock Island Dam spill

February 18, 2016 Rock Island Dam spill

January 1, 2018 Rock Island Dam spill

January 14, 2018 Rocky Reach Dam spill

October 9, 2019 Rocky Reach Dam spill

October 11, 2019 Rocky Reach Dam spill

An aerial photograph showing a large pipeline running diagonally across a river. A significant amount of dark, viscous oil has leaked from the pipeline, forming a large, dark pool in the water. The surrounding water is a murky, dark brown color, indicating the extent of the spill. The pipeline itself is light-colored and appears to be made of metal or concrete. The riverbed is visible, showing rocks and sediment.

# Coleman Oil

March 18, 2017 r-diesel spill into the Columbia River
