Public Education and Outreach (E&O) strives to increase awareness of stormwater impacts and encourage behavior changes contributing to water quality and quantity problems within a watershed. Ecology recognizes the potential benefits of these programs on our states water bodies and includes E&O as a required component of Stormwater Management Programs (SWMP). More recent NPDES permits require permittees to develop targeted programs using Social Marketing methods, evaluate the effectiveness of these programs, and apply results to improve E&O programs.

The purpose of this database is to provide jurisdictions with tools to identify and select which stormwater problems and behaviors to focus on, including guidance on how to conduct and report effectiveness evaluations to inform and improve future E&O efforts in a positive feedback loop of doing and learning.

**E&O PROGRAMS**

Select a program from the map to learn more.

**PROGRAMS BY AUDIENCE**

- General Public
- School Age Children
- Businesses
- Engineers
- Contractors

**PROGRAMS BY POLLUTANT**

- Pathogens
- Nutrients
- Metals
- Oils
- Sediment
SUBMIT DATA

If you know of E&O programs that we do not have listed, please help us by inputting the details through this form. We will follow up to verify information before publicly posting. If you have any questions or would like to suggest corrections to existing entries in the data please contact us at EMAIL.

To begin, select step one below.

DATA USAGE

The data collected here is reviewed by our team and added to the working database. This database is used to create tools to inform the public.

SECURITY

All data is held within a secured database. Contact information is not shared publicly in any capacity.
### GENERAL BACKGROUND

<table>

### Education & Outreach Programs
**Tools & Resources for Effecting Behavior Change**

Select a program below to view associated items such as evaluation reports and implementation materials.

#### Filter by:

- **Target Audience:**
  - General Public
  - School-Age Children
  - Businesses
  - Engineers
  - Contractors
  - Developers
  - Planners
  - Residents
  - Landscapers
  - Property Managers
  - Development Review Staff

- **Target Pollutant:**
  - Pathogens (Fecal Coliforms, Bacteria, E. Coli)
  - Nutrients
  - Metals
  - Oils
  - Sediment
  - Trash
  - Toxic Chemicals (Pesticide, Household Cleaner, etc.)

- **Research Instruments:**
  - Surveys
  - Observations
  - Interviews
  - Focus Groups
  - Pictures/Videos
  - Other

- **Research Quality Ranking:**
  - High
  - Medium
  - Low
  - N/A (not yet ranked)

- **Program Location:**
  - This will be a drop down of states

CAR WASH EDUCATION & OUTREACH PROGRAM

Date of Upload: October 1, 2021
Program Location: Yakima, WA
Lead Agency Name: City of Yakima
Lead Agency Location: Yakima, WA

PROGRAM OVERVIEW:

Target Audience:
General Public

Target Pollutant:
Oils

Instrument Type:
Survey

Data requested in the “Add Program” page will populate here for each program
It’s time to select an E&O program that is right for you! The tool below allows you to compare E&O programs based on your jurisdiction’s needs.

Begin by selecting Step 1 below and work through each of the sections for your program(s). At the end, you will have the option to download your responses to an Excel spreadsheet for future reference. Please note that your information is not saved on this site, so you must complete the steps and download your report before closing your browser window, or else your responses will be lost.

EPA NONPOINT SOURCE (NPS) OUTREACH TOOLBOX

The Nonpoint Source (NPS) Outreach Toolbox is intended for use by state and local agencies and other organizations interested in educating the public on nonpoint source pollution or stormwater runoff. The Toolbox contains a variety of resources to help develop an effective and targeted outreach campaign.
