

## Salmon Spawning Habitat Protection Rule Science Advisory Group Agenda

1:15 – 4:15 p.m., Wednesday, February 3, 2021

### How to join the webinar:

SAG members: Follow the link in your Webex meeting invitation email.

Panelist password: Ecology1

Attendees may [register here](#) to attend the meeting via Webex.

Attendee password: Ecology2

To connect your audio via phone instead of computer, call (415) 655-0001, Access code: 177 587 1308

### Meeting Goals

- Receive feedback from SAG members on Ecology's preliminary decisions for dissolved oxygen and fine sediment criteria
- Provide opportunity for SAG members to suggest alternatives if there are concerns about feasibility or protection

### Schedule

- 1:05 Log in to meeting and address any technical issues (Koberstein)
- 1:15 Introductions and a recap from the three previous meetings (Braley)
- 1:30 Presentation topics (Finch)
- Present preliminary decisions on dissolved oxygen criteria
  - Explain justifications for dissolved oxygen criteria
  - Questions or comments on dissolved oxygen criteria
  - Present preliminary decisions on fine sediment criteria structure
  - Explain the weight of evidence approach for a fine sediment impairment listing
  - Questions or comments on the fine sediment criteria
- 4:00 Wrap up and next steps (Braley)
- 4:15 Adjourn
