The SWG 6PPD Subgroup formed in 2020 and meets quarterly with support of the Stormwater Work Group (SWG). The goal of the SWG 6PPD Subgroup is to share the latest science on 6PPD and 6PPDQ.

10:00am **Welcome, from Eli Mackiewicz, Co-Chair**

10:05am **Stormwater Work Group Updates (Abby Barnes, DNR)**

- The latest SWG meetings on July 16 and September 10 focused on the [Stormwater Action Monitoring](#) (SAM) Round 5 Study Selection process. SAM will be releasing a Request for Proposals (RFP) this fall for new studies, including those that focus on 6PPDQ.
- The next regular SWG meeting is scheduled for November 12 from 9am – 12pm. For more information about the SWG, visit the [SWG Website](#).

10:15am **Presentation from the Oregon 6PPD Work Group**

Co-Chairs: Roy Iwai and Katie Holzer, PhD

- Topic: *Defining the Problem, Solutions, and Next Steps for Oregon*
- Overview: From local water quality data to adult spawning surveys, the impacts of 6PPD-quinone in Oregon rivers are not yet fully defined. With participation from local jurisdictions, state and federal agencies, watershed councils, Soil and Water Conservation Districts, and Riverkeeper organizations, the new working group seeks to define the extent of the problem, understand our roles and responsibilities, and find solutions, especially in critical and sensitive areas where we might actually see a difference from our actions.
