Walla Walla Basin Watershed Strategy

OPEN HOUSE

Tuesday, October 27th
4:30-7:30 PM

Panel discussion with local watershed experts and Q&A from 6:00-7:00 PM

Water and Environmental Center at the Walla Walla Community College
640 Water Center Drive
Walla Walla, WA 99362

Join our annual Open House to learn about the efforts underway to ensure there is enough water in the Walla Walla River Basin for fish, farms, and people!

In the Walla Walla River Basin, there is not always enough water available to meet the need of our local communities, Tribes, farms, and aquatic ecosystems.

The Walla Walla 2050 Watershed Strategy is a collaborative effort of people working together to meet the Basin's growing water needs and provide water for healthy rivers, fish, farms, and people.
