# Washington Smoke Information

This site is an effort by county, state, and Federal agencies and Indian Tribes to coordinate and aggregate information for Washington communities affected by smoke from wildland fires. The information is posted here by the agencies themselves while volunteers built and maintain the page.

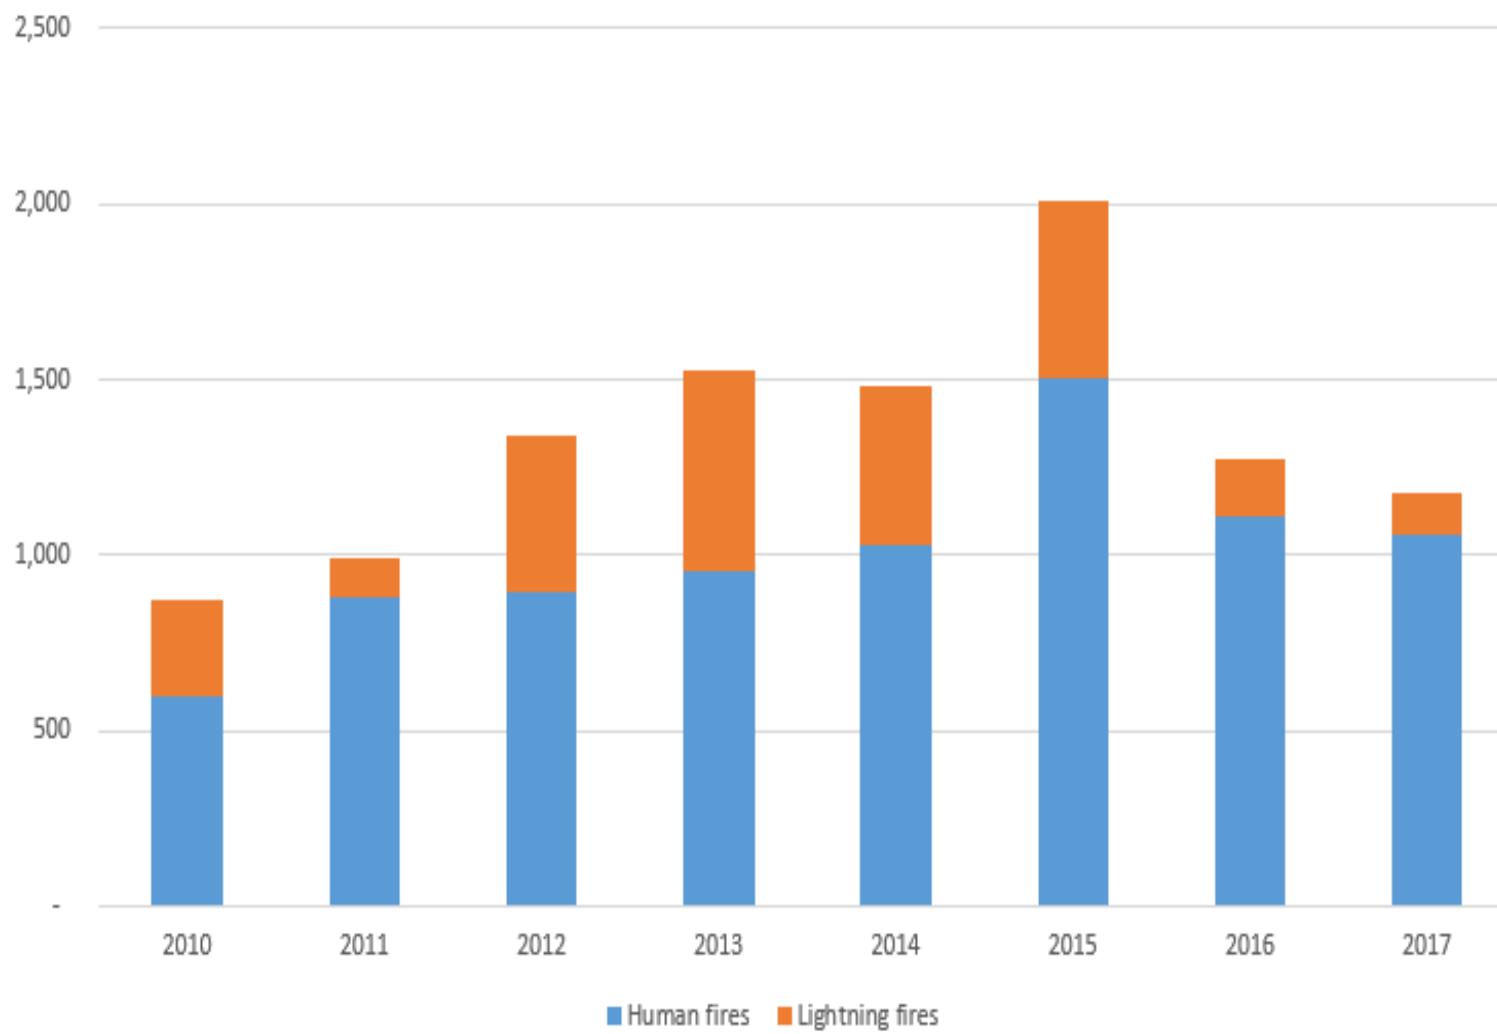

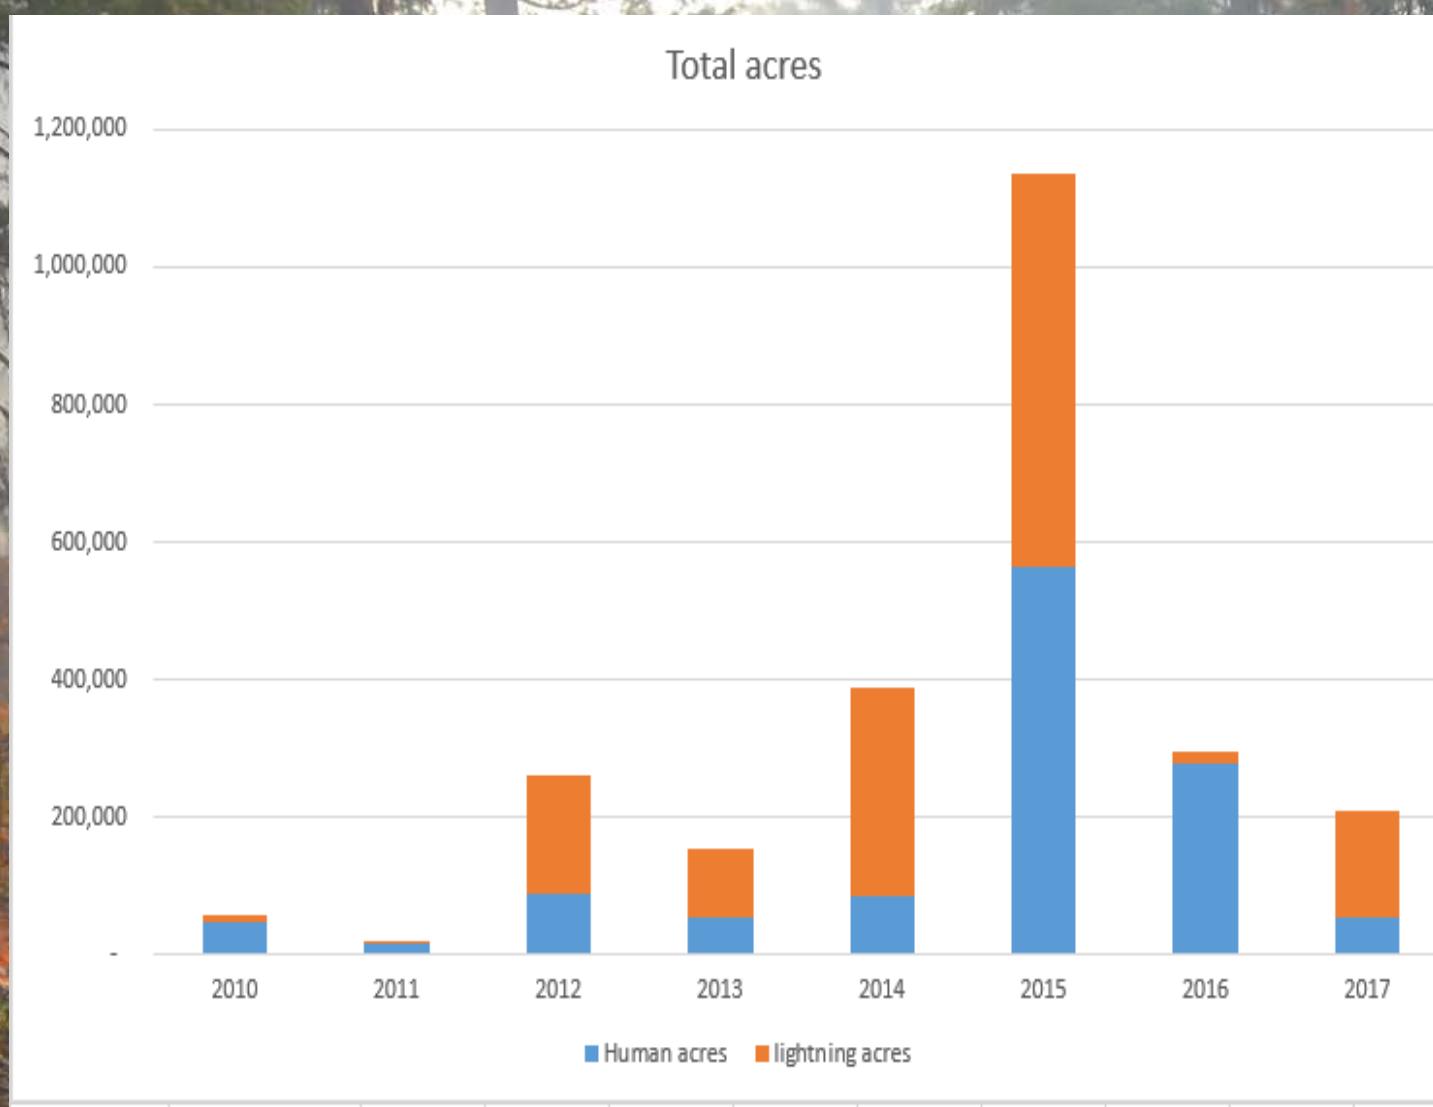

Washington Smoke Blog Hits by day 2017

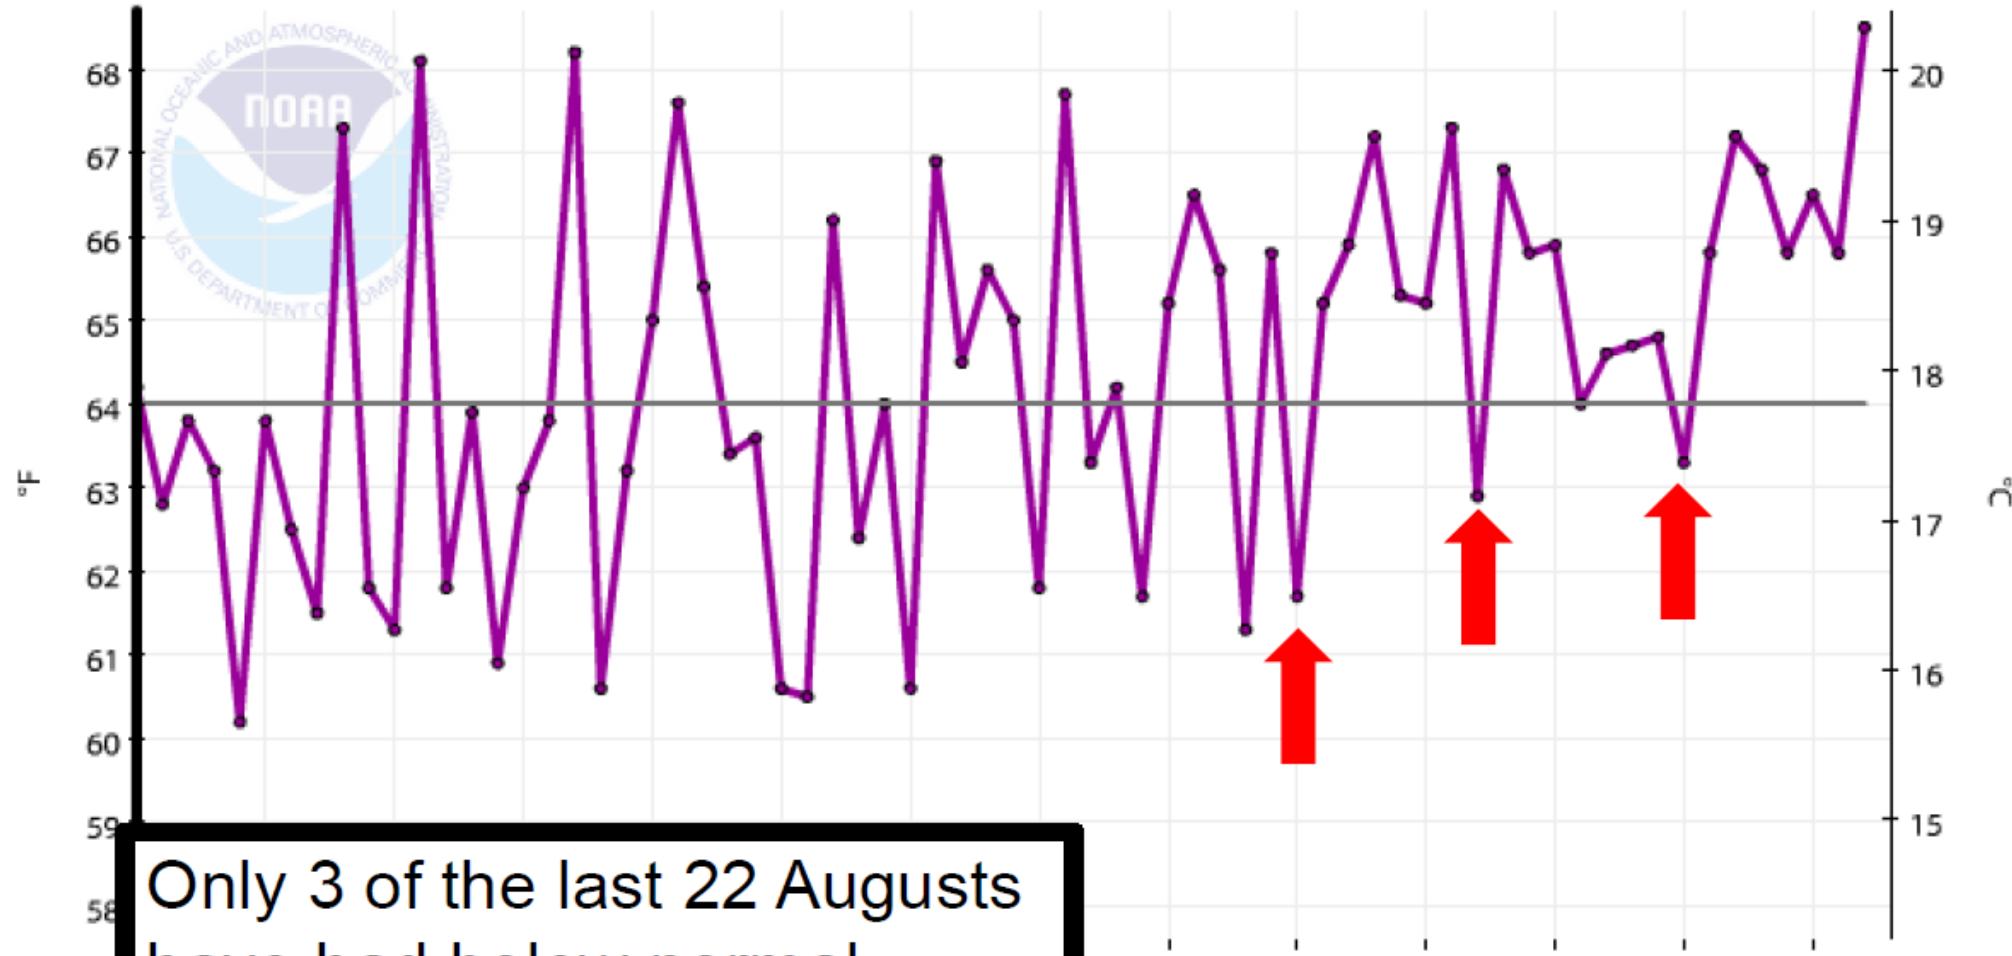

## Total fires

## Northwest, Average Temperature, August

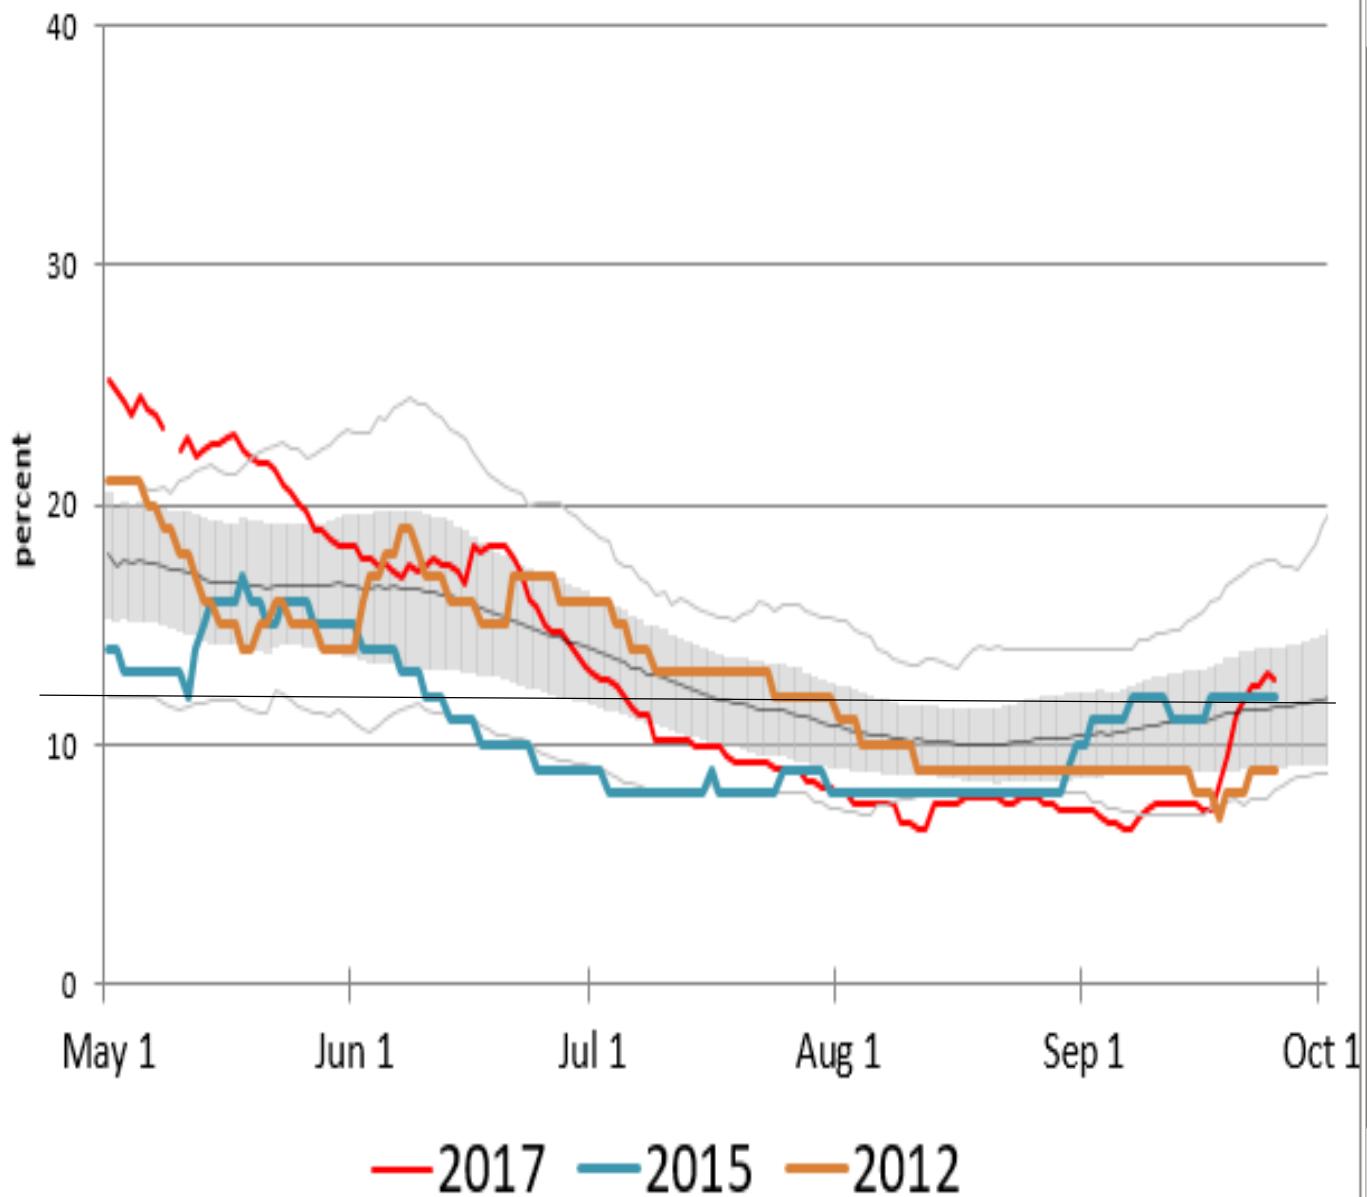

— 1901-2017  
Mean: 64.0°F

Only 3 of the last 22 Augusts have had below normal temperature in OR/WA/ID
