Meeting ID: 989 0670 9151 | Passcode: 665338

One tap mobile: +12532158782,,98906709151#,,,,,0#,,665338#

Purpose of Meeting: The purpose of this meeting is to meet as a small group, review Ecology’s online mapping tool on potential affected orchard lands, and to discuss small group-specific topics. Group members will have time to ask questions to MFA and Ecology and have an open dialog.

Schedule	Topic	Materials
3:00 p.m. (15 min.)	Welcome <i>Triangle Associates / Joy Juelson</i> <ul style="list-style-type: none"> • Welcome • Review Agenda and overview of meeting objectives • Review previous meetings and timeline 	Agenda Timeline Graphic
3:15 p.m. (40 min.)	Demonstration: Mapping of Legacy Pesticide Orchards <i>Ecology</i> <ul style="list-style-type: none"> • Ecology will demonstrate their updated, unreleased, and draft mapping tool that identifies potential affected old orchard lands • Q&A and input regarding the maps and demonstration 	Mapping Demonstration Screenshare
3:55 p.m. (65 min.)	Group Discussion on Permit Development Review <i>Triangle Associates /MFA/Group Members</i> <ul style="list-style-type: none"> • Round Robin and small group discussion regarding SEPA Review questions • Discuss and brainstorm elements in a guidance document • Next steps 	SEPA standard comment “Old” versus “New” Potential Permitting Process
5:00 p.m.	Adjourn	

Questions for Discussion:

- Discussion regarding Pre-Application meetings (i.e. guidance, what does Ecology’s participation look like, etc.)
- Projects subjected to SEPA Review (i.e. how to implement policies for clean up across jurisdictions, how sampling results should be connected to SEPA process, etc.)
- Projects not subjected to SEPA Review (i.e. What level of development will be reviewed and to what extent? Do single family building permits have to have soil sampling? Can guidance and direction to use mapping resource be the extent of the local government involvement in these projects?)
- Expectations and support between Ecology and Local Governments regarding the process.
