

Additional Information for Roza's Emergency Drought Application for Mack Creek Ranch, LLC

Summary: Roza is leasing all of the water associated with Certificate No. S4-83734-J under Mack Creek Ranch LLC's Trust Water Right Agreement.).

The water right under the TWRA is a senior right on the Teanaway River with a priority date of June 30, 1883. Recognizing this is a drought year and this right could be impacted by low flows, Roza Irrigation District will work with Ecology's Water Master closely to ensure that we are only using available water.

This lease will use water that is held in the Trust Water Rights Program for instream flow and mitigation of agricultural uses in the Yakima Basin and will be diverted downstream of the Teanaway ensuring that the water will remain instream throughout the Teanaway, which is a tributary to the Yakima River.

New Point of Diversion: 950 feet, S 3° 30' west (approximately 975 feet south and 75 feet west) from the northeast corner of Section 32, being within the NE1/4NE1/4 of Section 32, T. 15 N., R. 19 E.W.M.

Consumptive Use Calculation: We are leasing 284 ac-ft of consumptive use. The Secondary Reach quantities are:

Unit	May	June	July	August	September	Total
Acre-feet	0	52.76	101.94	75.42	54.70	284.82
cfs	0	0.89	1.66	1.23	0.92	

Period of use: June 1, 2025 –September 15, 2025.
