<p>NARRATIVE DESCRIPTION OF PROJECT:</p> <p>The project is located about one mile Northeast of Zillah, near the Yakima Valley Highway.</p> <p>While the applicant is eligible for 34.9 ac-ft/yr under the cost sharing program, they are only requesting 15 ac-ft/yr. The applicant proposes to offset the 15 ac-ft/yr of use for the project with 15 ac-ft/yr of mitigation from the Selah-Moxee Irrigation district.</p> <p>The existing well, BIF799, was previously approved in drought authorizations from 2023, 2019, and 2015. Review of the local area hydrogeology suggests that the Ellensburg aquifer, which the wells pull from, is not in overdraft condition and that nearby users will not be impaired by the project.</p>
