WASHINGTON SESSION LAWS GENERAL INFORMATION

1. EDITIONS AVAILABLE.

- (a) *General Information.* The session laws are printed in a permanent softbound edition containing the accumulation of all laws adopted in the legislative session. The edition contains a subject index and tables indicating Revised Code of Washington sections affected.
- (b) *Where and how obtained - price.* The permanent session laws may be ordered from the Statute Law Committee, Pritchard Building, P.O. Box 40552, Olympia, Washington 98504-0552. The edition costs \$25.00 per set plus applicable state and local sales taxes and \$7.00 shipping and handling. All orders must be accompanied by payment.

2. PRINTING STYLE - INDICATION OF NEW OR DELETED MATTER.

The session laws are presented in the form in which they were enacted by the legislature. This style quickly and graphically portrays the current changes to existing law as follows:

- (a) In amendatory sections
 - (i) underlined matter is new matter.
 - (ii) ~~deleted matter is ((lined out and bracketed between double parentheses))~~.
- (b) Complete new sections are prefaced by the words NEW SECTION.

3. PARTIAL VETOES.

- (a) Vetoed matter is ***printed in bold italics***.
- (b) Pertinent excerpts of the governor's explanation of partial vetoes are printed at the end of the chapter concerned.

4. EDITORIAL CORRECTIONS. Words and clauses inserted in the session laws under the authority of RCW 44.20.060 are enclosed in [brackets].

5. EFFECTIVE DATE OF LAWS.

- (a) The state Constitution provides that unless otherwise qualified, the laws of any session take effect ninety days after adjournment sine die. The Secretary of State has determined the pertinent date for the Laws of the 2009 regular session to be the first moment of July 26, 2009.
- (b) Laws that carry an emergency clause take effect immediately upon approval by the Governor.
- (c) Laws that prescribe an effective date take effect upon that date.

6. INDEX AND TABLES.

A cumulative index and tables of all 2009 laws may be found at the back of the final volume.

~~((4) In adopting an emergency rule, the agency shall comply with section 4 of this act or provide a written explanation for its failure to do so.))~~

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

Passed by the Senate April 21, 2009.

Passed by the House April 25, 2009.

Approved by the Governor May 19, 2009.

Filed in Office of Secretary of State May 20, 2009.

CHAPTER 560

[Engrossed Senate Bill 5995]

BOARDS, COMMITTEES, AND COMMISSIONS—ELIMINATION

AN ACT Relating to eliminating certain boards, committees, and commissions and the transfer of certain duties effective June 30, 2009; amending RCW 18.06.080, 70.128.163, 70.149.040, 79A.75.900, 70.14.060, 4.92.130, 18.84.040, 18.84.070, 28B.116.020, 28B.12.040, 43.43.866, 43.10.240, and 43.15.020; reenacting and amending RCW 70.105D.030; creating new sections; repealing RCW 72.09.800, 28B.04.085, 70.128.225, 18.20.260, 4.92.230, 21.20.550, 21.20.560, 21.20.570, 21.20.580, 21.20.590, 28B.116.040, 18.155.050, 74.32.100, 74.32.110, 74.32.120, 74.32.130, 74.32.140, 74.32.150, 74.32.160, 74.32.170, 74.32.180, 43.43.858, 43.43.860, 43.43.862, 43.43.864, 10.29.030, 10.29.040, 10.29.080, and 10.29.090; repealing 2008 c 311 s 1 (uncodified); repealing 2008 c 311 s 2 (uncodified); repealing 2008 c 311 s 3 (uncodified); repealing 2008 c 311 s 4 (uncodified); repealing 1997 c 406 s 1 (uncodified); providing an effective date; providing an expiration date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. Intent. One of the key roles of advisory boards, committees, and commissions is to provide input, advice and recommendations from stakeholders, other interested parties, and the public to state agencies. Some advisory boards, committees, and commissions may be abolished without detriment to the mission of the agency each supports. Most of the advisory functions of some boards, committees, and commissions can be performed without the administrative costs of maintaining formal organizations. In the interest of building a leaner, more efficient, and more responsible government, this vital communications conduit must be maintained for the benefit of the state and its citizens, through the use of modern communication technology. It is the intent of the legislature this interim to identify criteria to evaluate those advisory boards, committees, and commissions that may be eliminated or consolidated, and for agencies to identify new, less costly, and more effective opportunities to ensure a broad range of citizen participation is provided and that all reasonable efforts are made to ensure that channels are maintained for vital input from the citizens of Washington.

Acupuncture Ad Hoc Committee

Sec. 2. RCW 18.06.080 and 1995 c 323 s 7 are each amended to read as follows:

(1) The secretary is hereby authorized and empowered to execute the provisions of this chapter and shall offer examinations in acupuncture at least twice a year at such times and places as the secretary may select. The

WASHINGTON LAWS, 2009

Ch. 560

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or issue written opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(17)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance; and

(j) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened

Ch. 560

WASHINGTON LAWS, 2009

releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state's long-term ecological health, the department shall prioritize sufficient funding to clean up hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes, and create financing tools to clean up large-scale hazardous waste sites requiring multiyear commitments. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) Before December 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the local toxics control account;

(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium's long-term remedial action needs from both the local toxics control account and the state toxics

control account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts; and

(e) Provide the legislature and the public each year with an accounting of the department's activities supported by appropriations from the state and local toxics control accounts, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its waste management priorities under RCW 70.105.150, and all funds expended under this chapter.

~~(5) ((The department shall establish a scientific advisory board to render advice to the department with respect to the hazard ranking system, cleanup standards, remedial actions, deadlines for remedial actions, monitoring, the classification of substances as hazardous substances for purposes of RCW 70.105D.020 and the classification of substances or products as hazardous substances for purposes of RCW 82.21.020(1). The board shall consist of five independent members to serve staggered three year terms. No members may be employees of the department. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.~~

~~(6))~~ (6)) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

~~((7))~~ (6) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure

Ch. 560

WASHINGTON LAWS, 2009

compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

(ii) For those facilities where more than five years has elapsed since the environmental covenant was required and the department has yet to conduct a review, conduct an initial review according to the following schedule:

(A) By December 30, 2008, fifty facilities;

(B) By June 30, 2009, fifty additional facilities; and

(C) By June 30, 2010, the remainder of the facilities;

(iii) Once this initial review has been completed, conduct subsequent reviews at least once every five years.

Oil Heat Advisory Committee

Sec. 11. RCW 70.149.040 and 2007 c 240 s 1 are each amended to read as follows:

The director shall:

(1) Design a program, consistent with RCW 70.149.120, for providing pollution liability insurance for heating oil tanks that provides up to sixty thousand dollars per occurrence coverage and aggregate limits, and protects the state of Washington from unwanted or unanticipated liability for accidental release claims;

(2) Administer, implement, and enforce the provisions of this chapter. To assist in administration of the program, the director is authorized to appoint up to two employees who are exempt from the civil service law, chapter 41.06 RCW, and who shall serve at the pleasure of the director;

(3) Administer the heating oil pollution liability trust account, as established under RCW 70.149.070;

(4) Employ and discharge, at his or her discretion, agents, attorneys, consultants, companies, organizations, and employees as deemed necessary, and to prescribe their duties and powers, and fix their compensation;

(5) Adopt rules under chapter 34.05 RCW as necessary to carry out the provisions of this chapter;

(6) Design and from time to time revise a reinsurance contract providing coverage to an insurer or insurers meeting the requirements of this chapter. The director is authorized to provide reinsurance through the pollution liability insurance program trust account;

(7) Solicit bids from insurers and select an insurer to provide pollution liability insurance for third-party bodily injury and property damage, and corrective action to owners and operators of heating oil tanks;

(8) Register, and design a means of accounting for, operating heating oil tanks;

(9) Implement a program to provide advice and technical assistance to owners and operators of active and abandoned heating oil tanks if contamination from an active or abandoned heating oil tank is suspected. Advice and
