Slide 5: Chapter 365-190-100
Slides 7 & 8: Confirmed and Suspected Contaminated Sites List (wa.gov)
Slide 12: Washington Nitrate Prioritization Project
Slide 14: Washington State Dept. of Health Drinking Water Alerts
Slide 20: Washington Department of Health Office of Drinking Water Source Water Assessment Program Online Application; Washington Department of Ecology Facility/Site Online Application
Slide 23: Washington State Department of Health Office of Drinking Water online data - SENTRY; USGS – NWIS or the federal Water Quality Portal; Ecology – Environmental Information Management system (EIM)
Slide 25: Chapter 365-196-050 WAC Regional and Local Variations
Slide 32: Scatter Creek Aquifer Septic System Management Project
Slide 33: Presentation from third Community Workshop, held September 30, 2014 at Rochester Middle School
Slide 34: Grand Mound Model Report, Thurston County, December 2010
Slide 37: Chemigation/Fertigation - Pesticides and Fertilizers | Washington State Department of Agriculture
Slide 38: Washington Conservation Commission VSP Program; Department of Commerce Handbook – Chapter 5; Local VSP Lead Entity – Most often the Conservation District

Online Resources

• Learn more about the Growth Management Act and critical areas from the Department of Commerce.
• Department of Ecology – Critical Aquifer Recharge Areas Guidance Document (Replace with new draft)
• Washington Nitrate Prioritization Project
• Protecting Washington's Groundwater - The Nitrate Project (storymap)
• USGS – Aquifers and Groundwater basics
• Department of Health – Source water protection
• Department of Health – Water system planning
• Department of Ecology – Facility/Site
• Department of Ecology – Facility/Site GIS layer
- Department of Ecology – Well Logs
- Department of Ecology – Low impact development
- Puget Sound Partnership – Low impact development manual
- RCW 90.44.400 – Groundwater management areas
- RCW 36.70A.172 – Criteria for determining which information is the "best available science"
- WAC 365-195-905 through 920 – Criteria for determining which information is the "best available science"
