

## **Agenda Toxic Tires Science Updates for 6PPD Proviso Report**

**May 18<sup>th</sup> 1:00 – 4:30**

**1:00 Welcome – Perspectives**

Rhea Smith - Natural Resource Scientist

[Toxic Studies Unit](#), Environmental Assessment Program (EAP) – toxics in the environment

**1:10 NOAA – Toxic stormwater threats to Puget Sound at the watershed and landscape scales: priority information gaps for the recovery of ESA-listed species**

**Nat Scholz** – Research Manager, Ecotoxicology Program

**Julann Spromberg** – Research Fish Biologist, Ecotoxicology Program

**Blake Feist** – Statistician, Ecosystem Science Program

[Environmental and Fisheries Sciences, Northwest Fisheries Science Center | NOAA Fisheries](#)

**2:15 Break**

**2:30 Wild Fish Conservancy – Addressing URMS Data Gaps – a View from the Field**

**Jamie Glasgow** – Director of Science and Research, Wild Fish Conservancy

[Wild Fish Conservancy Northwest – Dedicated to the recovery and conservation of wild-fish ecosystems](#)

**2:50 WDFW – WDFW's High Resolution Land Cover program and alternatives**

**Ken Pierce** - WDFW

[High Resolution Change Detection \(pshrcd.com\)](http://pshrcd.com)

**3:10 Break**

**3:20 Ecology – Evaluating 6PPD Alternatives**

**Craig Manahan** – Safer ingredients chemist

[Hazardous Waste and Toxic Reduction](#) (HWTRP) – toxics laws enforcement

**3:30 Ecology – 6PPD BMP Updates**

**Brandi Lubliner** – [Stormwater Action Monitoring](#) (SAM) – municipal stormwater monitoring

**4:00 Questions & updates**

**4:30 Thank you for attending!**
